### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/13/08 requesting continued examination has been entered.

### ***Status of Amendments***

The claims amendments since the final rejection have been inconsistent with the identifiers and number of claims in relation to the last entered set of claims. In order to move the case forward, the RCE is considered entered but the claims of 8/13/08, 10/20/08 and 11/3/08 are considered as not entered. The claims filed 2/25/09 are considered entered with claims 1-46 listed as "canceled" and 47-56 listed as "new". Claims 38-46 although not listed prior to the RCE are considered void and listed as "canceled" as done on the current amendment filed 2/25/09 for clarity of record and to advance the case.

### ***Claim Objections***

Claims 1-46 are objected to because of the following informalities:

Although these claims are listed as canceled, the body of at least some claims seems inconsistent with what was previously submitted and some amendments didn't

Art Unit: 3652

list the text at all. The requirement for showing the text of canceled claims is waived, so for sake of keeping the record clear these claims should just be identified as "canceled".

Appropriate correction is required.

Claim 48 is objected to because of the following informalities:

The claims refer to a first through fourth axle and wheel assemblies affixed to the first through fourth support arms, but the independent claim already refers "an axle for a wheel" for the first through fourth support arms. To make sure there is no confusion each line of claim 48 "a." through "d." should reflect this. For example "a." of claim 48 could start with "said axle engaging said first support arm further comprising..."

Limitations should not be deleted as prosecution is closed.

### ***Allowable Subject Matter***

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Claims 47-56 are allowed for the reasons argued by applicant and because the known prior does not teach all the limitations of the current claims and it would not have been obvious to have modified the known prior art to have all of the claimed limitations.

### ***Conclusion***

This application is in condition for allowance except for the formal matters listed above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
